Biden-Harris 2nd Term

Letter from The President

As President of the Democratic Women of Wake County (DWWC), I am privileged to address you regarding ***Project 2025: Playbook for Donald Trump's Second Term***. This initiative, if enacted, threatens to fundamentally alter our democracy, particularly impacting women's rights.

The DWWC firmly believes that knowledge empowers individuals to advocate for change and discern truth from falsehood. As citizens of the United States, we have a duty to protect our ***Constitution***, which has steadfastly guided our nation since its inception in 1787. The Constitution's opening words, "***We The People***," affirm that our government exists to serve its citizens.

Project 2025 poses a direct threat to this venerable document. The plan includes concerning measures such as banning books in public schools, dismantling DEI programs in colleges, reducing services for low-income families, cutting taxes for the wealthy, failing to pass immigration reform, and undermining our justice system. These actions are antithetical to the principles enshrined in our ***Constitution***.

In contrast, the ***Biden-Harris Administration*** has achieved significant progress, including:

- Record low unemployment
- Reduced medical costs for seniors

- Student loan forgiveness
- Childcare tax credits for families
- Prevention of discriminatory mortgage lending
- Expanded overtime pay and over-the-counter birth control
- Enhanced veterans' benefits
- Gun violence prevention
- Addressing climate change through a clean energy economy
- Cracking down on "junk fees" and overdraft charges
- Reforming the Electoral Count Act to prevent another January 6
- Supporting smaller food producers
- Easing federal restrictions on marijuana
- Cracking down on cyberattacks
- Reinvigorating cancer research
- Expanding access to telemedicine
- Improving infrastructure and broadband
- Ensuring airlines compensate for delays or cancellations

These accomplishments are part of the Biden-Harris Administration's ongoing efforts to advance democracy and economic growth for all Americans. The American Rescue Plan, Bipartisan Infrastructure Law, confirmation of Justice Ketanji Brown Jackson, Bipartisan Safer Communities Act, CHIPS and Science Act, PACT Act, Marriage Equality Law, Inflation Reduction Act, and initiatives protecting reproductive rights, the Affordable Care Act, criminal justice reform, and student debt relief underscore this commitment.

We must resist any attempts to regress our democracy and economy. Instead, we should continue striving for progress both nationally and globally. Join us in upholding the American Dream and preserving our ***Constitution.***

Thank you for supporting the DWWC in our mission to ensure that " **We The People**" remains a guiding principle for our government.

Sincerely,

Sharon
